## Advice Guide and Booking Procedure

We are delighted to showcase what wonderful experiences we can provide your child this academic year. There are a number of curriculum-based enrichment opportunities that support the relevant subject area that your child might be studying, along with a structured Enrichment Week in July 2024.

Please spend time with your child looking through the booklet, identifying the trips that would be suitable for them, and making sure the trip is available to your child's year group or option group, as some are for specific year groups or option groups. We have worked hard to ensure there are a number of trips and residentials covering a range of price brackets. We do not expect your child to go on every trip however we do recommend looking at payment schedules and determining any financial impact it will have for your family, before making payment for a trip.

A summary of the experiences available to your child's year group is provided in the back of this booklet. Please make sure that your child definitely wants to participate, and you can ensure all payment structures can be adhered to prior to making payments for any of the experiences. Trips and activities will not be run on a first come first served basis but meeting the initial payment date is important to ensure enough pupil numbers are met to make the trip viable. Once this has been completed, on Friday 13th October 2023, we will confirm if your child has been given a place on the trip or if they have been put on the waiting list. The deadline for all initial payments will be Friday 6th October 2023. **Please read through the full terms and conditions before committing to any trip.**

### Enrichment week July 2024

Each year group will have a particular curriculum focus for the week, we have also made every effort to offer trips and residentials at different price ranges to suit all. Year 7 and 8, alongside their curriculum focus, will have a residential available for them. This will be a great way of forging new relationships and working on their resilience by attempting some of the tasks and activities during each residential. Should you decide to go on a residential it will mean you cannot attend the other activity that week, please be aware that your child would be away for the week so would be unable to attend the curriculum focused day trips.

Year 9 will all have a fun packed Extreme Sports activity day on site which will be run by Bolsover District Council, along with a day trip to Derbion Centre, where students will be able to apply their mathematical skills in a real-life setting. Year 10 will be undertaking their work experience Monday - Friday. The whole of KS3 will be involved in a sponsored event during Friday morning, more details will follow on this closer to the time.
